

Program: "cvtr4i2", Version 1.00, Mon Jun 16 13:19:04 2003

Purpose: Convert BITPIX=-32 FITS images to BITPIX=16

Usage: cvtr4i2

-r <Space_Separated_R*4_FITS_images> (Require at least one)

-i <Space_Separated_I*2_FITS_images> (Require at least one)

-d (Optional flag: default = no deletion of R*4 FITS images)

For example:

cvtr4i2 -r /path/fileR1.fits /path/fileR2.fits

-i /path/fileI1.fits /path/fileI2.fits -d
