

Results from wireguidestars:

Timeline = I99069REGOTL00.0

Planfile = /proj/wire/soda/so/ops/timelines/tl_test_2/I99069REGOTL.0//survey_990226_a02.plan ,

Alpri1_990226_t02.plan, fillercatcher_990226_a02.plan

Negative numbers of guide stars indicate mismatch between timeline and wireguidestars (diamonds)
Negative number one (−1) indicates minimum−criterion timeline match failure (Xs)

Numbers of >1200 Jy sources found within 1 degree of telescope boresight (triangles)
Numbers of >100 Jy bright sources found in telescope FOV plus buffer (squares)
Numbers of bright sources found in telescope FOV (asterisks) (either >10 Jy or
>1 Jy depending on whether −check1Jy switch was set)
